

School Online ERP

Ultimate School ERP software for all kinds of Schools

Genumind School ERP has every feature you will ever need to run your institution efficiently.

Genumind School ERP System provides user-friendly dashboards with login access for teachers, students / parents and management personnel of your institution. The various modules available in Genumind School ERP facilitate all the processes of your school from admission of new students to generating transfer certificates when students complete their studies.

Genumind School ERP has modules to manage Fee, Staff, Timetable, Attendance, Examinations, Hostel, Library, Transportation, School Calendar, Events and many more. It has a fully-fledged Human Resource module to manage the payroll and employee pay slips. The Finance module helps you to plan and allot different fee structures to students. Genumind School ERP System is also an excellent collaboration tool using its Class discussion. There is an internal messaging system within Genumind School ERP. SMART ATTENDANCE SYSTEM

Genumind Technologies revolutionizes the traditional Attendance System into Smart Attendance System that are suitable for any industry such as Schools, IT Companies, Restaurants, Retail chains, All small scale industries and etc. Genumind Technologies supports RFID based attendance and all the bio-metric attendance such as Fingerprint, Retina, Facial, Voice, Palm, and Password. Attendance can also be registered with just walking near 15mt radius (UHF) designed with latest technology.

RFID Based Go Through Module

Schools can be upgraded with the Long Range attendance system, where students will just walk in the school and attendance will be registered automatically.

This wireless RFID based automatic school attendance system offering a complete Student Attendance monitoring solution. Students carry an RFID based I-Card with them during the school day. It's simple like normal ID Card. The card is presented to the RFID reader upon either entering or leaving the school premises. The RFID reader is located in a walk-through gate. As soon as the card is presented, the reader is able to identify the student, their exact location and the time.

The student's parents are then immediately informed that they have arrived on or have left the school premises by means of a real-time automatic SMS. The message may take the format of, "Mum/Dad, I've arrived at/have left school".

Automatic attendance is also registered for the school providing school administration with access to real-time attendance data from anywhere in the world.

We provide completely web-based Student attendance system, which means that no further computers, internet or LAN wiring is required. The system is plug and play; all you have to do is switch in on.

RFID Based Show Module

*This is a wireless RFID Based Automatic School Attendance System. Parents get an instant SMS Notification through integrated Automatic SMS on their mobile phones as soon as their child Enters/Exits the school. Children are given RFID Based I-Cards. As they show this card on the RFID Reader during Entry/Exit to the school, their parents whether they are at home or at office, they come to know that their child has entered or Exit the school through an instant Real-Time Automatic SMS “Mummy/Daddy, I’m in school now!”and Automatic School Attendance is done. The school authorities can see the **Real-Time** Attendance of the students from anywhere in the world as it is a complete web-based School Attendance System. School doesn’t need internet connection, computer, etc., just plug and play this system.*

Biometric Based Attendance System

*This is a wireless Biometric Based Automatic School Attendance System. We can manage this module through RFID Based I-Cards or Thumb Impression. Parents get an instant SMS Notification through integrated Automatic SMS on their mobile phones as soon as their child Enters/Exits the school. Children are given RFID Based I-Cards. As they show this card on the Biometric machine or put their thumb on this machine during Entry/Exit to the school, their parents whether they are at home or at office, they come to know that their child has entered or Exit the school through an instant Real-Time Automatic SMS “Mummy/Daddy, I’m in school now!”and Automatic School Attendance is done. The school authorities can see the **Real-Time** Attendance of the students from anywhere in the world as it is a complete web-based School Attendance System. School doesn’t need internet connection, computer, etc., just plug and play this system.*

Visitor management system

Visitor tracking module is to be installed at the main gate of the school. It keeps track of all the people coming inside the school. It keep the data with photograph of people who comes in the school. It keeps the data for further auditing.

School vehicle Tracking System

When it comes to offering transportation facility for school students what needed to be considered prior is trust and safety. By providing access to customizable GPS enhanced **school bus tracking system**, parents, school administrators as well as the transport contracting agency can get updated with the route and time schedules of buses.

Parent and school administrators can track the Vehicle on their Android App. This would credits them with reduced physical stress and increased safety. Vehicle will show as running vehicle on App.

Parent can track the vehicle through specially designed Android App.

LIBRARY MANAGEMENT SYSTEM

[Library Management System](#) is a software used to manages the catalog of a library. This helps to keep the records of whole transactions of the books available in the library.

Genumind Technologies provides [Library Management System](#) which is very easy to use and fulfills all the requirement of a librarian.
